Limitless design possibilities

©ACCSYS

Accoya is an invitation to push the boundaries of architectural design. With more than 500,000 landmark projects worldwide, Accoya is redefining the potential for wood.

©BCQ ARQUITECTURA & GRUPO GÁMIZ

With over 20 years of innovation and expertise,
Accoya stands as the global leader for high-performance wood. Our patented modification process enables wood to withstand harsh exterior elements and accentuates its natural beauty, strength and character.

WOOD THAT STAYS TRUE

Accoya remains structurally sound with virtually no movement before, during and decades after the job is complete.

High usability of boards that stay straight before and after installation

So dimensionally stable that even harsh environments will not impact installation

3-4 times less swelling than traditional wood species, minimal movement keeps projects looking great

WOOD TO CHANGE THE WORLD

Accoya has the environmental credentials to make a bold commitment to build any project sustainably.

Peace of mind with the knowledge that all Accoya comes from FSC® certified forests

One of the few building materials certified Cradle to Cradle® at the Gold Level

Non toxic and 100% recyclable

Declare.

Acetylation is proven science for modifying wood, permanently transforming the cell structure to create wood that is virtually unaffected by the intake of water. We have perfected our exclusive manufacturing process to produce the best option in performance building materials.

WOOD THAT'S GUARANTEED TO LAST

Accoya solves the problem of deterioration in any climate, giving you the confidence that you made the right choice.

50-YEAR warranty above ground

25-YEAR warranty in ground or fresh water

Certified for use in termite zones and 22 times more resistant than pine, it's exceptionally durable

60-YEAR service life demonstrating significantly higher durability with real world testing

WOOD WITHOUT COMPROMISE

Accoya is the ultimate workable substrate trusted by craftsmen to deliver in any product application.

Excellent machinability, easy to work with, no special tools required

The best of both worlds, improved density and hardness without sacrificing strength

Leave natural for exquisite grain patterns or create a unique finish of your choice

Trusted since 2007 by architects,
manufacturers and homeowners alike.

LANDSCAPING

Accoya brings durability and low environmental impact to landmark applications. From floating bridges to spectacular curved sculptures, Accoya is the only choice for projects that integrate seamlessly with their surroundings.

COMMERCIAL

For commercial builds where once steel and concrete would be the only option, Accoya now delivers a unique combination of structural stability, design flexibility and the natural beauty of wood.

RESIDENTIAL

From low maintenance windows and doors, to sleek summer houses, to stunning cladding. Accoya redefines the potential for wood in residential design.

SIDING

Accoya's exceptional stability means fewer installation issues and a longer-lasting, high-quality finish. With wide boards, versatile surface texturing options through sawing, brushing, and charring, and a broad range of coatings, Accoya offers complete creative flexibility with no compromise on performance.

WINDOWS & DOORS

More durable than hardwood, Accoya comes in fixed-width sections that reduce waste, while the wide choice of coatings unlock endless design possibilities. A superior thermal performance and long service life make Accoya the smart, future-focussed solution for beautiful windows and doors.

DECKING

Resistant to distortion in even the harshest of climates, Accoya's superior durability ensures decking performs year after year. High stability means decking can be laid with smaller gaps and an even surface, making it the most barefoot-friendly option available. Low maintenance, Accoya decking has no need for coatings or frequent repairs.

Uncompromising quality.
Unlimited potential.
Best in class performance.
